DETAILED ACTION

Election/Restrictions

1. Restriction to two of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21-35, drawn to reaction products of polyvinylamines, classified in class 521+, various subclasses.
 - II. Claims 21-35, drawn to reaction products of alkylene polyamines, classified in class 521+, various subclasses.
 - III. Claims 21-35, drawn to reaction products of polyamino acids, classified in class 521+, various subclasses.
 - IV. Claims 21-35, drawn to reaction products of polyvinyl alcohols, classified in class 521+, various subclasses.
 - V. Claims 21-35, drawn to reaction products of polyoxyethylene bis amines or bis aminoalkyls, classified in class 521+, various subclasses.
 - VI. Claims 21-35, drawn to reaction products of aminoalkyl derivatives of piperazine, classified in class 521+, various subclasses.
 - VII. Claims 21-35, drawn to N,N'-bis-(3-aminopropyl)-1,3-propanediamine, classified in class 521+, various subclasses.

The inventions are distinct, each from the other because of the following reasons: The recited polymers, as well as their reaction products, are patentably distinct. Disclosure of one of the reaction products would not anticipate or make obvious any of the others.

Art Unit: 1751

2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Mr. James McBride on January 25, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318. The examiner can normally be reached on Monday through Friday from 8:00 until 4:30. In the event that the examiner is not available, his supervisor, Dr. Yogendra Gupta, may be reached at (571) 272-1316.
